*******MEDIA ADVISORY*******

Swope Health Northland Outpatient Clinic Will Relocate to Riverside

Swope Health Northland (SHN), an outpatient facility providing services to more than 2,500 families in the Northland, is relocating from its current address at 3526 N.E. Vivion Road to 4709-11 NW Gateway in Riverside, Mo.

SHN is resuming operations at its new location on Monday, October 2nd, 2006. We will be closed from noon, Thursday, September 28th until next Monday morning, October 2nd. SHN will continue to provide vital primary and preventive care for children and adults, including physical examinations, pregnancy testing, prenatal care, laboratory services and immunizations.

SHN received the 2005 Missouri Primary Care Association (MPCA) Immunization Award. The award is in honor of achieving a 95% immunization rate for their two-year-old patients in 2005. SHN is part of Swope Health Services, a not-for-profit organization providing comprehensive health services to more than 45,000 children and adults each year through five clinics in the bi-state metropolitan area.
